Course Description

Course Catalogue: "Study of the basic skills of good reasoning needed for the intelligent and responsible conduct of life. Topics include: argument structure and identification, validity and

Disney logic:

strength of arguments, common fallacies of reasoning, use and abuse of language in reasoning, principles of fair play in argumentation."

When questioned about the beliefs that one holds, many individuals will claim that their beliefs are strong, secure and qualify as knowledge. This makes sense. After all, the beliefs that we hold (which number far more than we may initially think) form the basis of our understanding of the world around us. In essence, our beliefs determine how we interact with that world and how we interact with others whom we live with. However, there is a problem. Many of these beliefs that are determined to be true are either outright false or based on faulty reasoning. The question is how do we know this? How *can* we know this? How *can* we evaluate beliefs that are so vital to our daily lives? How can we evaluate the beliefs of others? To state that it is often confusing and, more than not, difficult is certainly an understatement. It is important to understand, however, that difficulty does not necessitate ignoring the problem.

This class is designed to help us understand the proper forms of reasoning and the methods we can use to determine the strength of our beliefs and the beliefs of others through an understanding of proper and improper argument forms. We will discuss what good reasoning is, different argument forms, effective methods of communication (both verbal and written) how to evaluate information and we will review various logical fallacies that we often encounter but fail to recognize.

• <u>Required Textbook</u>:

• **<u>Required Tech</u>**: Unless otherwise noted in the weekly breakdown or by CANVAS announcement, this class will be held in-person on Monday, Wednesday, and Friday in Mendocino Hall 1003. However, due to the possibility that courses *may need* to move online for emergency reasons (AQI or Covid-19 Regulations) you are required to have downloaded Zoom and be ready on a given day to participate in class in a synchronous online environment.

Note About Course Outline/Schedule

<u>Please Note:</u> This course is scheduled to be held in-person on Monday, Wednesday, and Friday. Due to the ongoing nature of the Covid-19 Pandemic and the possibility of AQI related disruptions, the course may be forced to move online. If we are forced into an online environment, you should be prepared to use Zoom. There may also be a situation where due to illness I will move a class session to an online environment. If this situation arises, I will send out an announcement using CANVAS, so be sure to check the announcements module frequently.

Contacting Your Professor & General Class Announcements

Contacting Me: Monday through Friday I check my Sac State accounts a minimum of once but I try to check twice (morning and evening). If I do not respond to an email that you have sent within one business day, please feel free to resend the email. In order to ensure a prompt reply, all emails that you send must be formatted according to the following link: https://www.csus.edu/college/arts-letters/philosophy/ internal/g6-how-to-correspond-with-your-professor.pdf

Note: All emails that are not formatted according to the above specifications will be responded to last.

Course Announcements: There will be many course announcements that you will be expected to read throughout the term. All course announcements will be sent via CANVAS. Be prepared to check the announcement page on a regular basis during the course.

• Evaluation/Homework Assignments

In-Class Assignments: There will be a number of *randomly assigned*, short in-class assignments throughout the term. These assignments will be worth a total of 5 - 10 points each (you will be informed of the specific point value when each assignment is given). At the end of the term, a total of 45 points will be possible. **There are no make-ups on missed in-class work.**

Please Note: Late work for good cause such as medical or family emergencies (including COVID-19 related reasons like illness or quarantine) may be excused on a case-by case basis, typically with written notice and appropriate documentation.

Quizzes: As outlined on the weekly course breakdown below, there will be *three types* of quizzes in this class.

- (1) *Reading Quizzes:* Prior to each *new section* lecture/new topic, there will be a quiz to be completed prior to the lecture on that reading/subject (see weekly breakdown below for details). These quizzes must be completed in CANVAS and must be completed prior to the scheduled class time. Each Reading Quiz will be made available on the date stated in the weekly breakdown and will be available until that scheduled class begins. These quizzes will be multiple choice and/or true and false. Each quiz will be worth 10 points. Once you begin a quiz, you will have 20 minutes to complete it. Please Note: Once you answer a question, you will not be able to go back and change your answer.
- (2) *Lecture Quizzes*: This course is scheduled to meet *Monday, Wednesday and Friday*. As illustrated in the weekly breakdown below, each class session will involve a lecture/class discussion on the material assigned for that class. At the end of each week (after Friday's lecture each week) students will be required to complete a *short* quiz on the lecture material provided. This quiz will be available in CANVAS on Friday by 11:59 PM and must be completed no later than the scheduled class time on Monday. Once you begin a quiz, you will have 20 minutes to complete it. **Once you answer a question, you will not be able to go back and change your answer.** Like each Reading Quiz, the Lecture Quizzes will be multiple choice and/or true and false. Each Lecture quiz will be worth 10 Points.
- (3) *In-Class Quizzes:* All in class quizzes (10 in total) will be taken during class. In-Class Quizzes will not be announced until administered (they are, effectively, popquizzes). You will have no more than 10 minutes to complete any given In-Class Quiz. **No makeups will be given for any missed In-Class Quizzes.** If a class period has an In-Class Quiz you will be provided with a one-time code that must be submitted in CANVAS and will allow you to begin the quiz. All In-Class quizzes will consist of no more than 2 multiple choice and/or true and false questions. You will be able to go back and change your answers if you wish to on ALL In-Class Quizzes. Each quiz will be worth a total of 5 points (totaling 50 points at the end of the term).

IMPORTANT Quiz Notes:

1) There will be no make-up quizzes if you miss a quiz (any type). Please do not ask! It is your responsibility to review the Due Each Week Summary on the Weekly Breakdown (below). Please Note (again): Late work for good cause such as medical or family emergencies (including COVID-19 related reasons like illness or quarantine) may be excused on a case-by case basis, typically with advance written notice and appropriate documentation.

2) To do well on these quizzes and thus to do well in the class, you should make sure to attend class, to actively participate in the lecture (as much as our present situation allows), and to complete the assigned readings

3) The quiz breakdown can be a little confusing at first. Thus, if you are confused in any way about the detailed quiz schedule, it is <u>your responsibility</u> to come

and speak to me during my office hours. Not understanding the schedule will not be grounds for a make-up

4) If you have any issues during the quiz (like, for example, a system freeze) please <u>DO NOT</u> email me. Simply speak to me after the next class and we will resolve the issue

5) At the end of the term, I will drop the lowest score on each type of quiz

Writing Assignments:

There will be three <u>short</u> writing assignments in this class. For each assignment, you will be provided with assignment topics, structural details and a grading rubric <u>two weeks prior</u> to the due date for each essay. Assignments must be handed in using the proper Link in CANVAS (will be explained on the prompt). No emailed essays will be accepted (without extreme circumstances). Late essays will be docked 5 points for every day that they are late (excluding Saturday and Sunday). If your essay is late, you must arrange a method to hand in the essay with me after class. *Please Note: As before, late work for good cause such as medical or family emergencies (including COVID-19 related reasons like illness or quarantine) may be excused on a case-by case basis, typically with advance written notice and appropriate documentation.*

Examinations: There will be two examinations in this class (a midterm and a final exam). There will be a <u>comprehensive</u> review held on the Friday before each exam and you will receive a very detailed study guide for each exam. There will be no make-ups on exams - except with "extraordinary" circumstances - so schedule outside activities accordingly. Note: Extraordinary circumstances do not include *personal* athletic activities, vacations, car not starting, <u>bought an early plane ticket home/for family vacation</u>, just not feeling like it, etc. A doctor's note (or something similar) will be required to schedule a make-up exam.
