Course Description

Course Catalogue: “Study of the basic skills of good reasoning needed for the intelligent and responsible conduct of life. Topics include: argument structure and identification, validity and strength of arguments, common fallacies of reasoning, use and abuse of language in reasoning, principles of fair play in argumentation.”

When questioned about the beliefs that one holds, many individuals will claim that their beliefs are strong, secure and qualify as knowledge. This makes sense. After all, the beliefs that we hold (which number far more than we may initially think) form the basis of our understanding of the world around us. In essence, our beliefs determine how we interact with that world and how we interact with others whom we live with. However, there is a problem. Many of these beliefs that are determined to be true are either outright false or based on faulty reasoning. The question is how do we know this? How *can* we know this? How *can* we evaluate beliefs that are so vital to our daily lives? How can we evaluate the beliefs of others? To state that it is often confusing and, more than not, difficult is certainly an understatement. It is important to understand, however, that difficulty does not necessitate ignoring the problem.

This class is designed to help us understand the proper forms of reasoning and the methods we can use to determine the strength of our beliefs and the beliefs of others through an understanding of proper and improper argument forms. We will discuss what good reasoning is, different argument forms, effective methods of communication (both verbal and written) how to evaluate information and we will review various logical fallacies that we often encounter but fail to recognize.

• **Required Textbook:**

Text: “Logical Reasoning” by Dr. Bradley Dowden. There is no textbook that you are required to purchase for this class. The textbook can be downloaded for free at the following link:

• **Student Standards of Conduct:**

Plagiarism and/or cheating will not be tolerated in this class. All those who engage in these activities will receive a zero on the associated assignment. In addition, all incidents of cheating and/or plagiarism will be reported to the department chair and to the Judicial Officer in the Office of Student Affairs. It is your responsibility to both know and adhere to Sac State's Academic Honesty Policy. This policy can be found at the following address:

If you wish for more assistance/advice on the issue of plagiarism, please see the following CSUS library link <http://csus.libguides.com/home> (information on citing and researching)

In-Class Participation: Purposely "obstructing" the viewpoint of another student in the classroom during classroom discussions is prohibited. This class will involve many discussions concerning the material assigned for homework and the material presented during the classroom lectures. This being a philosophy course, many of these discussions *may* challenge certain beliefs that you hold. Open dialog and proper methods of argumentation (which will be discussed) are not only expected but required for this class.

Attendance/Participation: Students are expected to attend each class session. This class will involve many in-class discussions and a significant amount of in-class, graded and ungraded work. Students are expected to have completed the readings and participate in all in-class discussions.

Cell Phones and Computers: Please set your phone to vibrate before class. Cell phones are not to be used in class for any reason. If you must take a call (which I discourage unless an emergency) please step outside before you answer. No texting or Internet use will be allowed in class.

Email Correspondence: Monday through Friday I check my Sac State *and* Gmail accounts a minimum of two times each day (morning and evening). If I do not respond to an email that you have sent within one business day, please feel free to resend the email. In order to ensure a prompt reply, all emails that you send must be formatted according to the following link: <https://www.csus.edu/college/arts-letters/philosophy/internal/g6-how-to-correspond-with-your-professor.pdf>

All emails not formatted according to the above link will be answered last.

• **Disability Accommodations:**

If you have a disability and require accommodations, you will need to provide disability documentation to SSWD, Lassen Hall 1008, (916) 278-6955. Information can be found at the following link: <http://www.csus.edu/sswd/ApplicationProcess-Forms.html>. Please discuss your accommodation needs with me after class or during my office hours *before* the end of the third week of the semester.

As such, I am bound to the requirements established by CSU Executive Order 1083 which can be found at the following link: <http://www.calstate.edu/eo/EO-1083.html>

• **Evaluation/Homework Assignments:**

In-Class Assignments: There will be a number of randomly assigned, short in-class assignments throughout the term. These assignments will be worth a total of 5 – 10 points each (you will be informed of the specific point value when each assignment is given). At the end of the term, a total of 45 points will be possible. There are no make-ups on missed in-class work.

Quizzes: As outlined on the weekly course breakdown below, there will be two types of quizzes in this class.

- (1) **Reading Quizzes:** Prior to each *new section* lecture/new topic, there will be a quiz to be completed prior to the lecture on that reading/subject (see weekly breakdown below for details). These quizzes must be completed in CANVAS and must be completed prior to the scheduled class time. Each Reading Quiz will be made available on the date stated in the weekly breakdown and will be available until 10 minutes before that scheduled class. No make-ups will be given for missing a quiz. These quizzes will be multiple choice and/or true and false. Each quiz will be worth 10 points. Once you begin a quiz, you will have 20 minutes to complete it.
- (2) **Lecture Quizzes:** This course is scheduled to meet Tuesday and Thursday. As illustrated in the weekly breakdown below, each class session will involve a lecture/class discussion on the material assigned for that class. At the end of each week (on Friday each week) students will be required to complete a short quiz on the lecture material provided. This quiz will be available in CANVAS on Friday before 5 PM and must be completed no later than 6 PM on Tuesday. Once you begin a quiz, you will have 20 minutes to complete it. Like each Reading Quiz, the Lecture Quizzes will be multiple choice and/or true and false. Each Lecture quiz will be worth 10 Points.

There will be no make-up quizzes if you miss a quiz (either type). I will, however, drop the lowest score received on each type of quiz at the end of the semester (one reading quiz and one lecture quiz). To do well on these quizzes and thus to do well in the class as a whole, you should make sure to attend class, to actively participate in the lecture and to complete the assigned readings.

Writing Assignments:

There will be three short writing assignments in this class. For each assignment, you will be provided with assignment topics, structural details and a grading rubric two weeks prior to the due date for each essay. Assignments must be handed in at the beginning of class on the day that they are due. No emailed essays or electronically submitted essays will be accepted. Late essays will be docked 5 points for every day that they are late (excluding Saturday and Sunday). If your essay is late, you must arrange a method to hand in the essay with me after the class that the essays are due.

Essay #1 Prompt: **Tuesday, 9/17**

Due: **Tuesday, 10/31**

Essay # 2 Prompt: **Tuesday, 10/22**
